

## KFM INCOME FUND INVESTMENT REPORT JUNE 2022

### Objective of the Fund

To provide an income stream in excess of the 1-year Bank Bill Swap Rate (BBSW) plus 4% pa, which is the Fund's performance benchmark, from a diversified range of ASX listed income producing securities.

### Investment Strategy

The Fund invests predominantly in high yielding securities listed on the ASX such as hybrid securities and corporate bonds (fixed and floating), unsecured fixed interest investments, property trusts, preference shares, utilities and infrastructure securities and high yielding ordinary shares, particularly bank shares, as well as government bonds and cash. Option strategies (buy & write) are used for generating additional income and partial asset protection from leading stocks. The Fund is actively managed.

### Target Market Determination Summary - Typical Investor

This product is likely to be appropriate for consumers who are seeking income and some capital growth, to be used as a core component or small allocation of their portfolio, with a medium-term investment timeframe and medium risk and return profile. This Fund is classified as an RG240 Hedge Fund and may have complex features. "KFM Income Fund's Target Market Determination is available <https://www.eqt.com.au/corporates-and-fund-managers/fund-managers/institutional-funds/institutional-fund-manager?f=f08295c9-1e13-4222-bcd3-05f6e349535d>. A Target Market Determination describes who this financial product is likely to be appropriate for (i.e. the target market), and any conditions around how the product can be distributed to investors. It also describes the events or circumstances where the Target Market Determination for this financial product may need to be reviewed."

### Portfolio Manager

Kaplan Funds Management is the manager of the portfolio for over 14 years since the Fund's inception in 2007.
